Written Public Comment:	Regarding todays board meeting, I'm recommending that Karen Dean be nominated President and Tom Gray Vice President due to the fact of the experience they bring to the Board.

Written Public Comment:	I hope Karen Dean is elected as President, as she has served us well as Vice President. Tom Gray should then be elected Vice President.

Written Public Comment:	<p>Without hesitation, I'm strongly suggesting the election of Vice President Karen Dean as the next board president. I worked with her on the original Resources & Infrastructure Committee and we served together on the NCAC for several years. She has been super diligent in exploring and learning about all functions of the CCSD board, operations and financing, and is the best choice for the presidency. We are entering an acute phase of upgrading many critical functions of the CCSD as well as big financial challenges, and this is the time to depend on proven experience and deep knowledge of the District. Director Tom Gray will make an excellent Vice President with his invaluable experience at the CCSD as well as NCAC and close ties to many SLO County agencies. These are very important connections for our future.</p>

Written Public Comment:	<p>I am writing to encourage the Board to follow “tradition” and elect current sitting VP Karen Dean as Board President, and Tom Gray as Vice President. Karen Dean has a breadth of experience and public service unmatched by any other current Board member. Her knowledge of CCSD finances and issues is complete. I would remind the Board that past deviation from electing the prior sitting VP to Board President was met with widespread anger and frustration. Please elect Karen Dean to the position which she has prepared for and is most qualified for.</p>

It would be helpful if you would publish the contract we have with the county regarding the rodeo grounds development and please refer specifically to the county's requirements of us in that contract. That would be a good starting place if we are updating the design in any way. We need to agree on what those requirements mean.
Thank you.
