IMPORTANT INFORMATION FOR LODGE HILL RESIDENTS: PLANNED WATER SERVICE INTERRUPTION FOLLOWED BY PRECAUTIONARY BOIL WATER NOTICE EFFECTIVE OCTOBER 13, 2026

The Cambria Community Services District (CCSD) will be conducting critical water system work that will require a temporary interruption of water service to customers in the affected Lodge Hill area beginning Tuesday, October 13, 2026, at approximately 8:00 am.

Following restoration of water service, CCSD will issue a Precautionary Boil Water Notice for affected customers as a precaution due to the temporary loss of water pressure during the planned shutdown.

The planned water service interruption is necessary while CCSD replaces aging pressure-reducing equipment located on Ellis Avenue in Cambria. Completing this work requires a full shutdown of the two highest-pressure zones served by the Fiscalini Tank.

Water service will be temporarily shut off beginning at approximately 8:00 a.m. on Tuesday, October 13, 2026, and is anticipated to continue until approximately 5:00 p.m.

Water service will be restored as soon as the necessary work is completed. The actual restoration time may vary depending on field conditions and the progress of construction.

Following restoration of water service, affected customers will be placed under a Precautionary Boil Water Notice.

The temporary loss of water pressure associated with the planned shutdown may allow contaminants to enter the distribution system. As a precaution, customers in the affected area should not drink tap water or use tap water for food preparation unless it has first been boiled, or use commercially bottled water, until CCSD officially lifts the notice.

The Precautionary Boil Water Notice will remain in effect until CCSD determines that the water is safe and provides official notice that the advisory has been lifted.

Customers should not assume that the boil water notice has been lifted simply because water service has been restored.

The CCSD will provide updates as additional information becomes available.
