Subject: Water Permits for Lot Owners
Date: Thursday, June 8, 2023 4:26:08 PM

Hello,

I'm interested to know if the CCSD has any plans to release the block on water meters for lot owners.

I've owned my lot since 1988 and immediately got a place on the water meter list.

We were planning to build our retirement home in Cambria. While we've been waiting all these many years, exactly 35 years

, my husband has passed away and I'm not in a financial situation where I could build anything.

As any normal person could imagine, this is disturbing and disappointing to say the least.

My lot is worthless without a meter. I can't even give it away.

Now that our reservoirs are to capacity and beyond, I am certain CCSD will do the right and ethical thing and continue with water meter distribution.

Please let me know the progress.

Thanks,

Janis Krechter

Haley, see below.

Can you please add Ms Siegler's comment below to read along with tge written comments regarding Cindy?

Thanks!

Karen

Absolutely.

Thank you for doing this on top of every thing else you do.

Suzy

Is it ok if I forward this to Haley to have it read out loud at the meeting?

Dear Karen,

I will be unable to attend the CCSD meeting on Thursday but hope you will include these few remarks in

your remembrance of Cindy.

Cindy was a polymath. She had interests and knowledge of a variety of subjects; wine making (and drinking), painting, finance, history, cost analysis, food, music (she played the oboe, one of the most difficult to play instruments), theatre and film, travel and making friends. She had a commitment to honesty and excellence. She had a wonderful sense of humor. My best memory will be of being on the phone with her and laughing together - hearing her truly delicious guffaw.

She will be deeply missed.

Thank you -

Dear Board and fellow Cambrians,

I am so saddened to learn of Cindy's passing earlier this week. During the past four years I got to know her during our term as CCSD Directors. The two of us started out somewhat at loggerheads. But, over time we developed a mutual appreciation for one another — especially during the year when she was Board president and I was vice president when we spent many hours in consultation over the phone.

She had a brilliant, analytical mind. She was sensitive to the interrelatedness of things and had an unusual ability to foresee the consequences of a course of action. I don't know if she played chess but if she did I expect she was quite good at it.

She was a remarkable person and an important asset to our community. We will miss her greatly.
