

Additional Comments on the  
May 26, 2026 Draft Update to the Fiscalini Ranch Public Access & Resource Management Plan

Following up on the comments I provided previously regarding the body of the May 26, 2026 Draft Update to the Fiscalini Ranch Public Access & Resource Management Plan, I would like to offer the additional comments for consideration on the Appendices.

**Appendix 2: Ranch Vegetation Management Methods Summary**, starting on page 58

On page 61/127, under **Monterey Pine Forest**: ...Follow guidelines in *the Fiscalini Ranch Public Access and Resource Management Plan* and best practices for...

The original plan had ... Follow guidelines in *the [Forest Management Plan](#)* and best practices for...

Removal of the reference to this appears to be a serious oversight. Simply stating *Follow guidelines in the Fiscalini Ranch Public Access and Resource Management Plan* is a circular reference that provides no additional information, so it makes little sense to include in the Appendix.

Was this intentional? If so, I'll be interested in the rationale.

Thanks again for the opportunity to provide comments for consideration by the ad hoc committee.
