ARTICLE VI. Materials: Should any of the materials or equipment prove defective or should the work prove defective due to faulty workmanship, material furnished or methods of installation, or should the work or any part thereof fail to operate properly as originally intended and in accordance with the drawings, typical details, and specifications, due to any of the above causes, all within twelve (12) months after date on which the work called for in this Contract is accepted by District, the undersigned agrees to reimburse District, upon demand, for its expenses incurred in restoring said work to the condition contemplated in said project, including the cost of any such equipment or materials replaced and the cost of removing and replacing any work necessary to make such replacement or repairs, or, upon demand by District, to replace any such materials and to repair said work completely without cost to District so that said work will function successfully as originally contemplated.

or any of his subcontractors should persistently violate any of the provisions of the Contract, or if he should disregard laws, ordinances or the instructions of the Engineer, then District may, upon certificate of the Engineer when sufficient cause exists to justify such action, serve written notice upon Contractor and his surety (if applicable) of its intention to terminate the Contract, such notice to contain the reasons for such intention to terminate the Contract, and unless, within five (5) days after the serving of such notice, such violations shall cease and satisfactory arrangements for correction thereof be made, the Contract shall, upon the expiration of said five (5) days, cease and terminate.

In the event of any such termination, District shall immediately serve written notice thereof upon the surety (if applicable) and Contractor, and the surety shall have the right to take over and perform the Contract, provided, however, that if the surety, within ten (10) days after the serving upon it of notice of termination, does not give District written notice of its intention to take over and perform the Contract or does not commence performance thereof within the ten (10) days stated above from the date of the serving of such notice, District may take over the work and prosecute the same to completion by Contract or by any other method it may deem advisable, for the account and at the expense of Contractor, and Contractor and his surety shall be liable to District for any excess cost occasioned District thereby, and in such event District may, without liability for so doing, take possession of and utilize in completing the work such materials, appliances, plans and other property belonging to Contractor as may be on the site of the work and necessary therefore. In such case Contractor shall not be entitled to receive any further payment until the work is finished. If the unpaid balance of the Contract price shall exceed the expenses of finishing the work, including compensation for additional managerial and administration services, such excess shall be paid Contractor. If such expense shall exceed such unpaid balance, Contractor shall pay the difference to District. The expense incurred by District, as herein provided, and damage incurred through Contractor's default, shall be certified by the District Utility Department Manager.

ARTICLE VIII. The Contractor shall indemnify, and hold harmless, the District, and its officers, officials, employees and agents, from and against any and all claims asserted, liability, loss, damage, expense, costs (including without limitation costs and fee of litigation) arising from, directly or indirectly, or in connection with this Contract or the acts or omissions of Contractor, Contractor's Subcontractors, employees, representatives, agents and invitees including, but not limited to, performance of the work hereunder or failure to comply with any of the obligations contained herein, except such loss or damage which was caused by the established proven negligence or willful misconduct of District, its officers, officials, employees and agents. Said indemnification and hold harmless provisions shall be in full force and effect regardless of whether or not there shall be insurance policies covering and applicable to such liability, loss, damage, expense or cost.

EXHIBIT 5

The Contractor agrees that the use of any and all public streets and improvements which are part of or subject to this Contract shall be at all times, prior to the final acceptance by the District, the sole and exclusive risk of the Contractor. The Contractor further specifically agrees that he shall indemnify and hold District free of any liability for any accident, loss, or damage to the work, which is the subject of this Contract prior to its completion and acceptance by the District.

ARTICLE IX. It is further expressly agreed by and between the parties hereto that should there be any conflict between the terms of this instrument and the bid or proposal (if one) therefore, then this instrument shall control and nothing herein shall be considered as an acceptance of the said terms of said bid or proposal conflicting herewith.

ARTICLE X. Time is of the essence of this contract and failure to comply with this provision shall be a material breach of this contract.

ARTICLE XI. If any part of this contract is held invalid by a court of competent jurisdiction, the balance shall retain its full force and effect.

ARTICLE XII. Maintenance of required insurance coverage is a material element of this contract and failure to maintain or renew coverage or to provide evidence of renewal shall be a material breach of this contract. **Contractor shall execute and provide the attached Certificate of Workers Compensation Insurance.**

ARTICLE XIV. Additional Provisions Required by Law. Each and every provision of law and clause required by law to be inserted in this Contract, including but not limited to the following statutorily required provisions, shall be deemed to be inserted herein and the Contract shall be read and enforced as though it were included herein, and if through mistake or otherwise any such provision is not inserted, or is not currently inserted, then upon application of either party the Contract shall forthwith be physically amended to make such insertion or correction.

The following statutorily required provisions hereby apply to this contract:

EXHIBIT B - PROJECT DESCRIPTION

Project overview: The project consists of removing the existing manual transfer switch and replacing it with a new, automatic one, reworking the wiring and connections on generator conductors between the new automatic transfer switch (AST) and exterior junction box to the left of the utility meter, and replacing the generator with a new generator on the same supports.

Additional details on the project:

1. The basic specifications for the automatic transfer switch are that it is a 200 amp, 480-volt automatic transfer switch. It will be mounted in place of the existing manual transfer switch and have an integrated main circuit breaker.
2. Replace the wiring and connections on generator conductors between ATS and the exterior junction box to the left of the utility meter. The junction box must be replaced as it is in poor condition and rated for indoor use only.
3. Establish a connection for temporary backup power (pin and sleeve) to maintain power to the Booster Station during installation. The CCSD will provide a towable backup power generator.
4. Remove the existing generator; install a new diesel-powered generator on the same supports; use the existing underground conduit to wire the generator to the replaced junction box next to the ATS. Flush cut the wires in the second conduit and cap conduit. Please include the make and model of the generator and the make and model of the diesel engine for the generator in the RFP response. The replacement generator must be powered by a diesel engine and be Tier 4 compliant.
5. Dispose of all removed equipment and parts, including the old generator, the old transfer switch, and all other removed materials, as well as any trash generated during the installation process.
6. Provide training to staff on new equipment operations.

The following must be noted and measures to comply (e.g., a work plan) included in the response to the RFP:

1. The **MAXIMUM** amount of time the pump station can be without backup power is 36 hours. This is incredibly important and **MUST** be taken into consideration when planning the work. The scope of work includes adding a connector/plug for a trailer-mounted generator for backup power during the generator replacement work. CCSD will supply a trailer-mounted generator.
2. The **MAXIMUM** amount of time the pump station can be without power entirely (e.g., during ATS installation/connection or disconnection) is 6 hours.

Additional notes:

1. Permits are outside the scope of this project. CCSD will supply all the necessary permits for the work to be performed.
2. Inspections of the completed work are outside the scope of this project. CCSD will provide all inspections it deems necessary.

The completed project shall result in a fully functional, permanent-mounted, diesel-powered generator and automatic transfer switch.
