

April 27,2019

To: CCSD Directors and PROS Commissioners
SUBJECT: CAMBRIA SKATEBOARD PARK
FROM: DR. ROBERT H. KELLEY, RETIRED CITY MANAGER & PARK &
RECREATION PROFESSIONAL--CERTIFIED

DIRECTORS & COMMISSIONERS

In 2017-2018 my grandson and I traveled from Santa Cruz to Ventura CA and visited many of the community skateboard parks. Most of all the parks are in middle class neighborhoods and are used by serious skaters. This sport is an individual person sport and requires serious and timely practice by those involved.

MARCH 11, 2020

FIRST:

1.) Discuss moving the park to the Fiscalinii Community Park (PROS Comm: Hearing)

CCSD would have to amend the Fiscalini Community Park Plan

- a. Permitting a concrete or asphalt pad for sports
- b. CCSD to amend the Fiscalini community Park "EIR"

2.) Put up a "Theometer (like we did for the library) and see if there is enough interest to raise the \$\$\$\$\$ to build the park

3.) Adopt the Olympic "Street Skateboard Park Design"

4. Develop a skateboard park committee (Lions or Rotary Clubs) or citizens to oversee the park.

5. Have the skatepark be part of CYAA (sub-committee_

6. Sell the current park space to become a business

7. Place 6-12 4 foot X 4 foot community advertising boards eg: Robins Restaurant. Charge \$500. a year, like the CUHS Baseball Field.

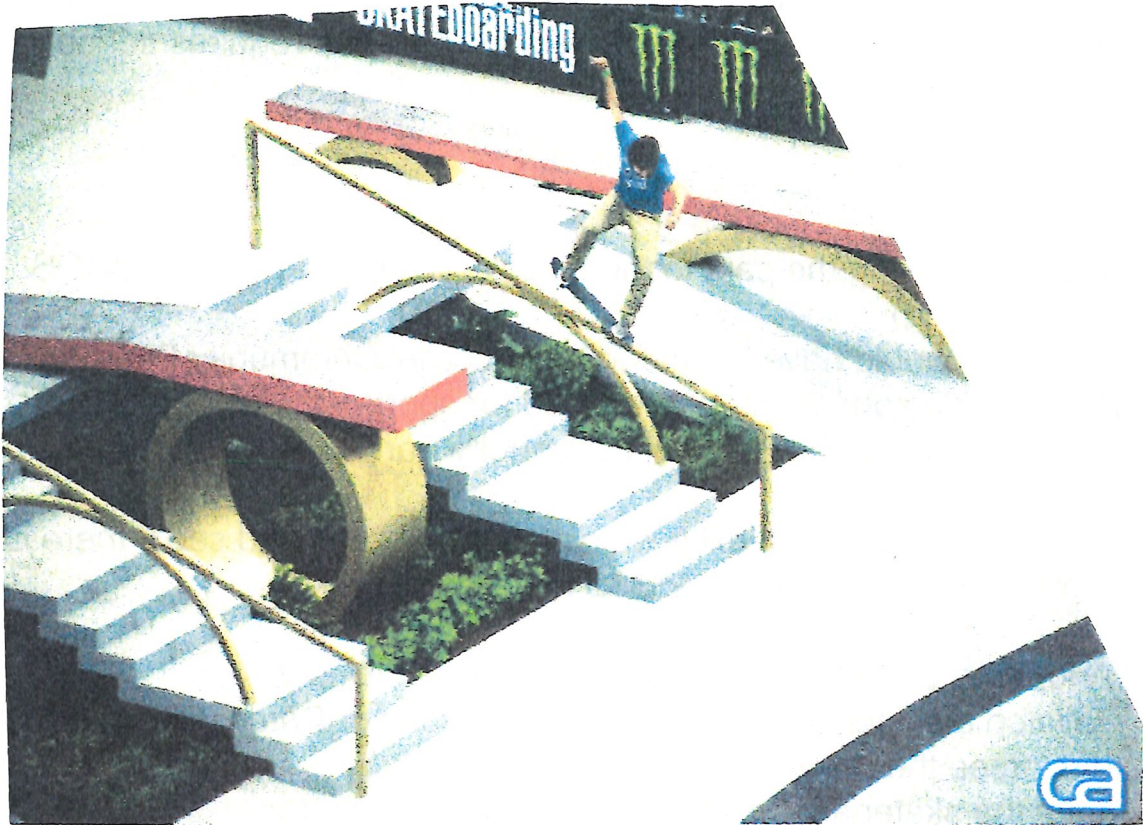

8. Eliminate the parking area.

9. My Grandson(Jake Martin) will donate the street rail to the Cambria Park (The Steel Rail is one essential element to a street skateboard park

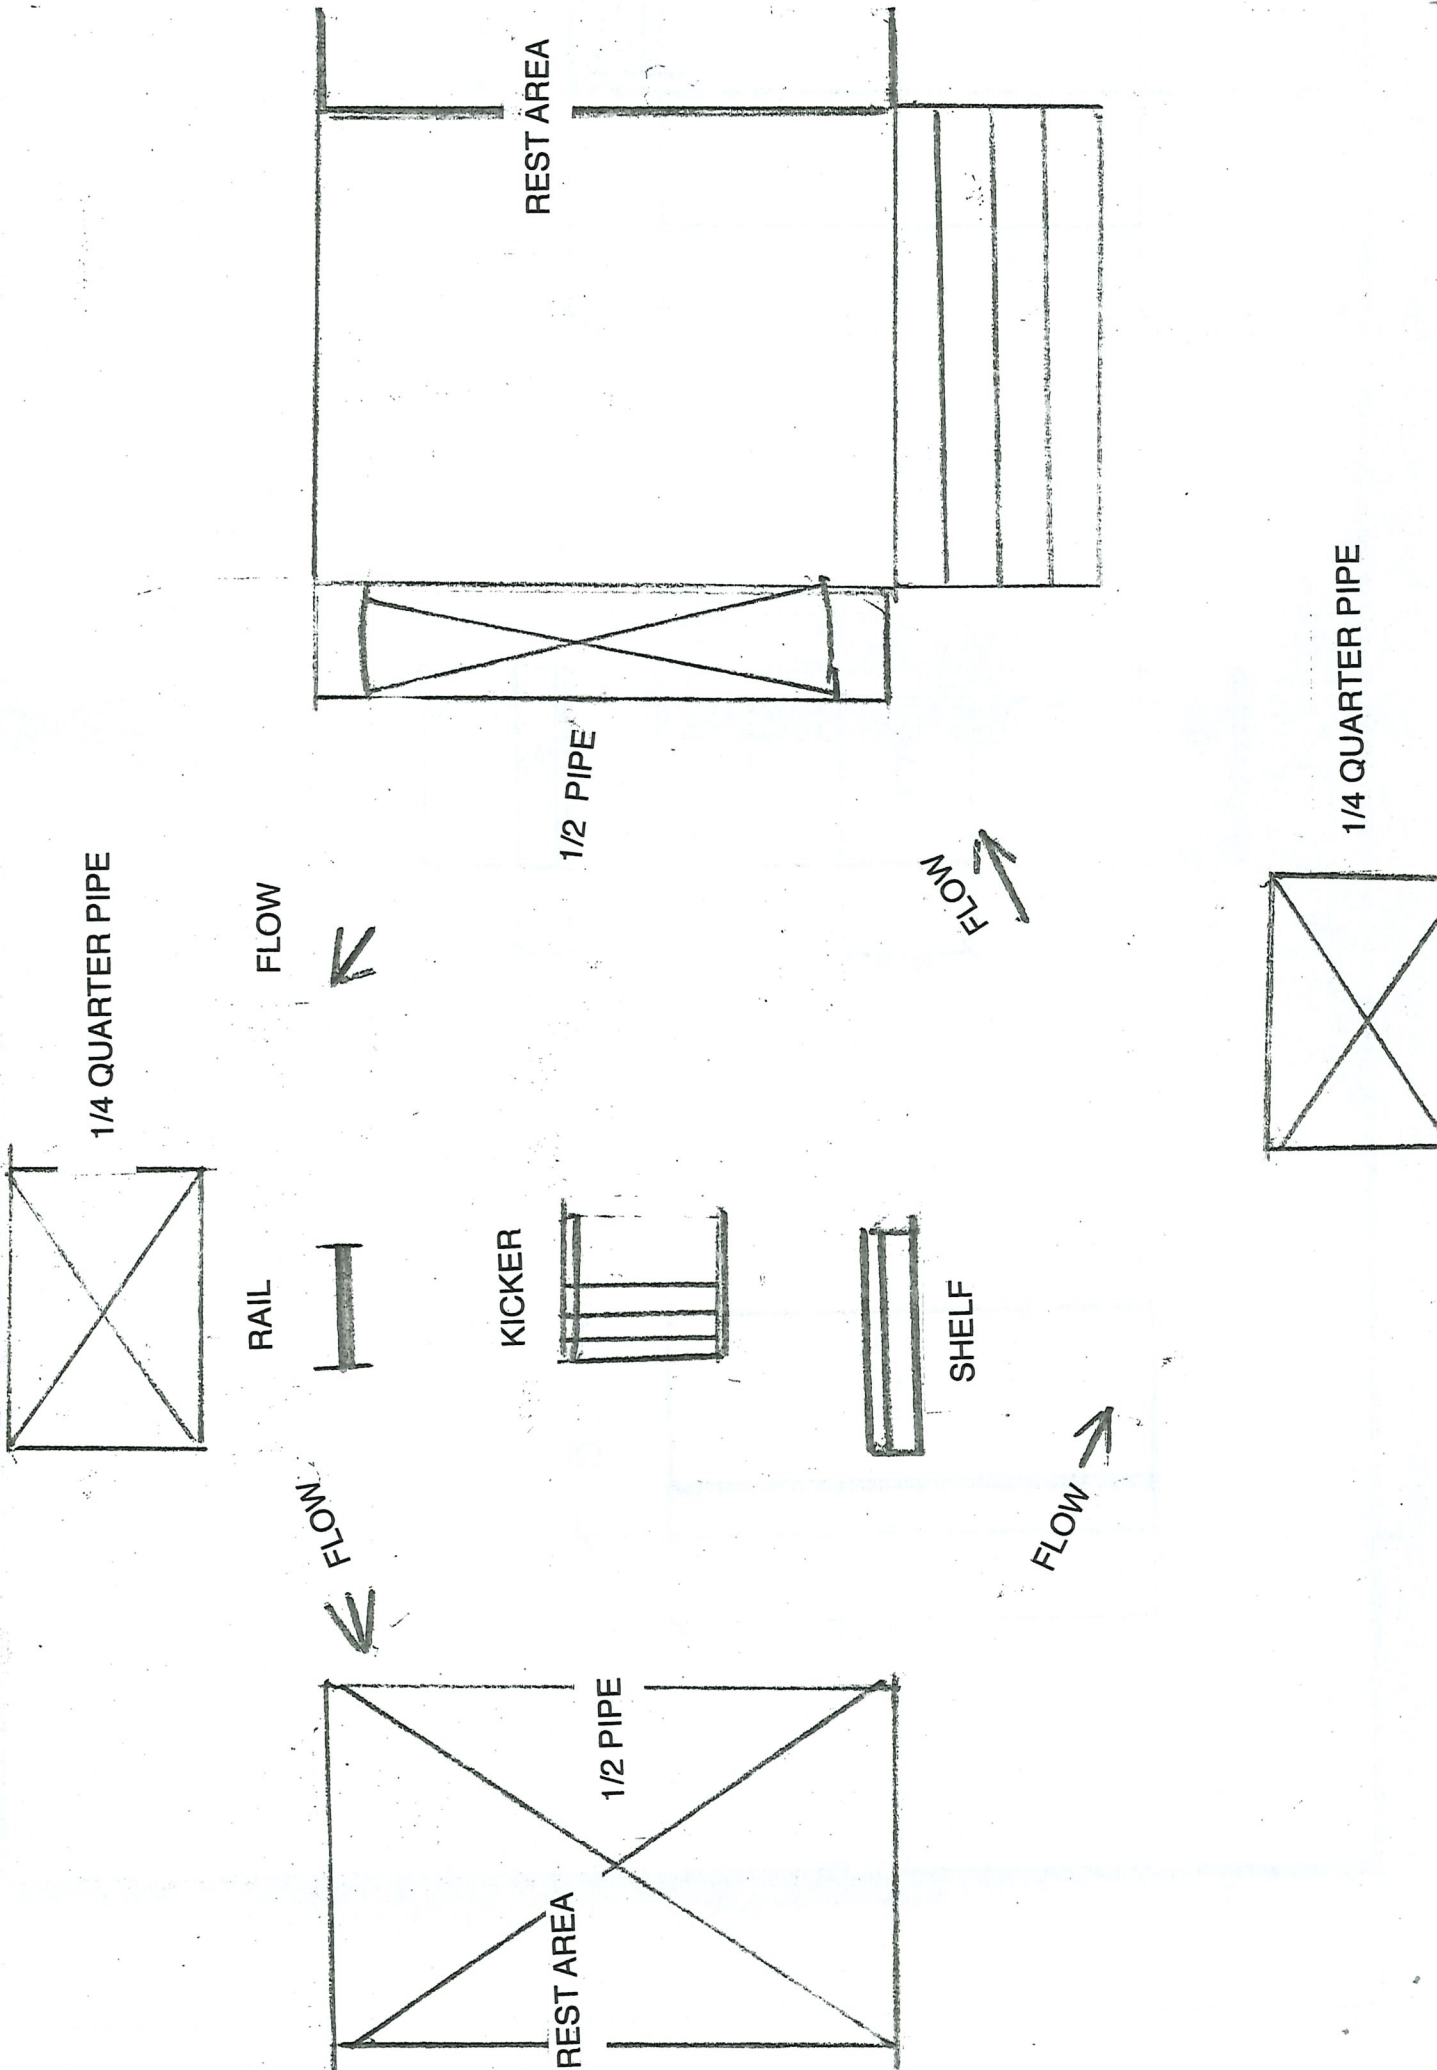

In closing:,I realize that the current interest is in the community park. I fought for the park 15 years ago and still support the concept today.

Nearly every community from Santa Cruz to Venture has a skateboard park.(See Jake Martin report)

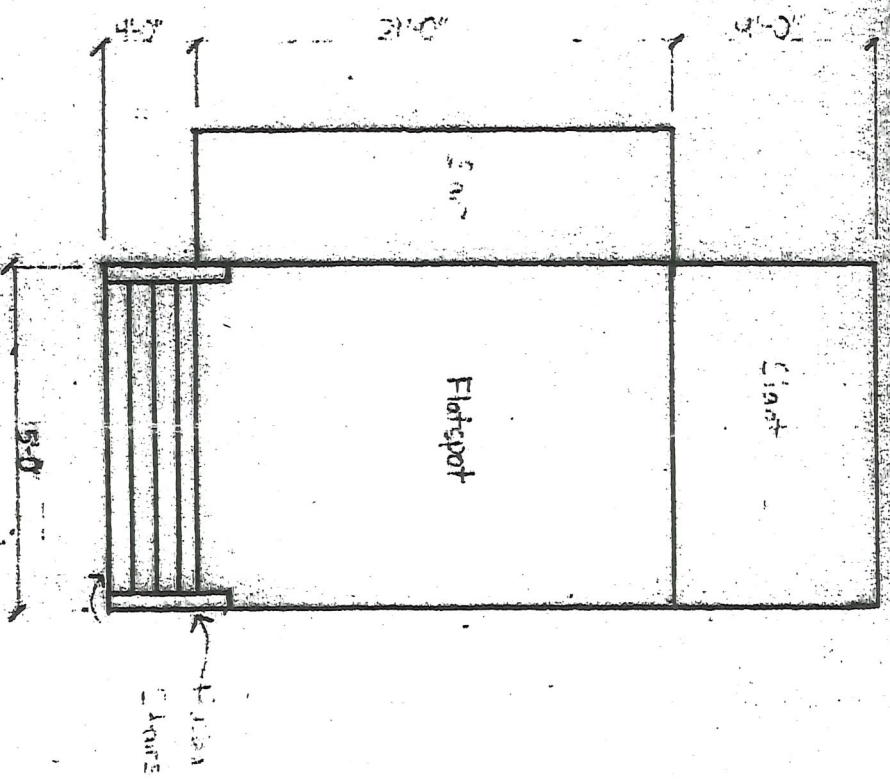

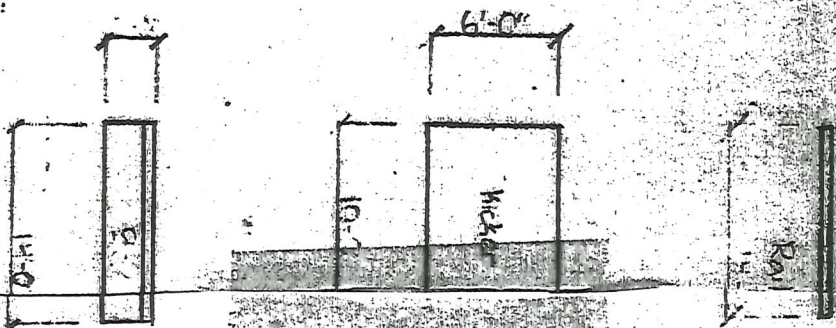

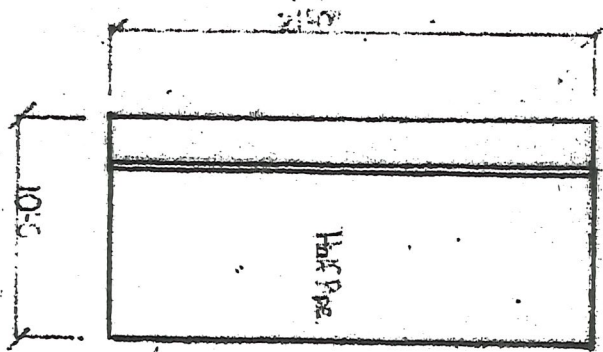

Thank you for your attention:
Dr. Robert Kelley, Cambria Volunteer
