#### CAMBRIA COMMUNITY SERVICES DISTRICT

TO: Board of Directors AGENDA NO. **5.A.** 

FROM: John F. Weigold, IV, General Manager

Meeting Date: October 20, 2022 Subject: General Manager's Report

#### **GENERAL MANAGER:**

The District continues its mission of providing water, wastewater collection and treatment, emergency response, facilities, and administrative services. In addition to the daily operations of the District, the following is an update on some of our current ongoing projects and activities:

#### Fire Chief Recruitment

The District has finalized a decision for the position of District Fire Chief. The Board will consider the prospective Fire Chief's employment agreement at today's meeting.

### **Acting Fire Chief**

Fire Captain Mike Burkey has skillfully and professionally filled in as our Acting Fire Chief during our Fire Chief recruitment, all while remaining in a duty section capacity during this time frame. Thanks to Captain Burkey for keeping our Fire Department trained and ready for all emergencies!

## Wastewater Treatment Plant Funding

The District successfully completed the sale of \$12.1 million of certificates of participation (bonds) on Tuesday, October 4, 2022. The closing for the transactions will be executed on Thursday, October 20, 2022. Project work on the wastewater system will begin soon and the District will be providing regular updates on the status of the work. This financing was the result of a huge collaborative effort over many weeks of discussions, meetings, email and telephone calls to successfully complete with our team of financial advisors. Special thanks also go to our Board Vice President Karen Dean, Director Cindy Steidel, District Counsel Tim Carmel, District Engineer Ray Dienzo, Wastewater Systems Superintendent John Allchin, Administrative Department Manager Pam Duffield, Finance Manager Denise Fritz, and Board Secretary Leah Reedall, for all their work in this endeavor.

#### Homeless Encampment Cleanups

The District has continued to work with local, regional and state agencies for continuing homeless encampment cleanups. The latest were significant cleanups along Highway 1 and at the Pocket Park on Center Street. Kudos to Carlos Mendoza for his continued efforts in coordinating those efforts.

### Regulatory Compliance

The District continues to provide all required regulatory reporting on or ahead of schedule.

1 - Public Record Requests and Responses

#### **Public Record Requests and Responses**

The District received and has responded to five (5) Public Record Act Requests since September 1, 2022 by the following individuals:

**9/1/2022 Tina Dickason** – Please provide any and all communications, whether in writing, emails, text messages, or phone calls, where written notes were taken, and/or transcriptions of phone messages, including voicemails, from June 2019 to present between General Manager Weigold, former CCSD GM, Jerry Gruber, or any other CCSD staff, former CCSD Board member, Jim Bahringer, CCSD Board President, Donn Howell, current Board member, Tom Gray or any other CCSD Board member; and UnLOC President Deryl Robinson, UnLOC Vice President Dennis Dudzik or any other UnLOC Board member; or any member of Cambrians for Water, (C4H2O), to include all parties who were copied or blind copied in any/all requested communications and including names of all parties copied or otherwise included in those communications.

On September 19, 2022 the CCSD responded to Ms. Dickason's 9/1/2022 Public Records Request with the following:

We recognize that we have a duty under the California Public Records Act to make a good faith effort in searching for documents that are responsive to your request. As you know, requests for public records must be focused and specifically identifiable. To date, we have identified and are enclosing several documents which we believe to be responsive. Please click on the link to access those documents on OneDrive: Responsive Documents.

As well, we continue in good faith with our search and should additional responsive documents be identified, we will promptly notify and make them available to you.

**9/19/22 – Jeffrey Forest** - Any specific documentation on why the water moratorium went into effect in 2001. Also, if there is any subsequent documentation that adds to the maintenance of the moratorium, can you please send me that as well. I am looking for the specific documents that state the reason that lot owners, with water wait positions are unable to build.

On 9/29/2022, the CCSD responded to Mr. Forest's 9/29/2022 Public Records Request with the following:

We recognize that we have a duty under the Public Records Act to make a good faith effort to search for documents that are responsive to your request, therefore we have included many documents which we believe to be responsive. Due to the large number of documents provided, we have made these documents available to you on OneDrive. Please click on the link to access the responsive documents: Forest Documents.

**9/21/22 - Tina Dickason -** Please provide all edited and unedited videotaped recordings of the September 15, CCSD Board meeting, starting at 1 pm, recorded by AGP VIDEO, with whom the District contracts for such services. I am also requesting all edited and unedited recordings of the September 15, 2022 CCSD Board meeting, that the District itself recorded.

On 9/29/22 the CCSD responded to Ms. Dickason's 9/21/2022 Public Records Request with the following:

We recognize that we have a duty under the Public Records Act to make a good faith effort to search for all records that are responsive to your request. With that in mind, we are reaching out to AGP and to all CCSD staff and Board members to determine whether they have records responsive to your request. In the meantime, following are links to the two responsive records we have located:

On October 5, 2022, the CCSD further responded to Ms. Dickason's 9/1/2022 Public Records Request with the following:

We have identified one additional record that is responsive to your Public Records Request. AGP Video has explained that they trim the beginning and ending of their recordings as needed, in order to provide contractual gavel-to-gavel video recordings to their clients. There were technical issues with the link initially provided by AGP in response to the District's request for their untrimmed record, which is now available for your use on OneDrive here: Responsive Documents.

  - We want to thank the Chamber of Commerce, Lions Club and Fire Safe Focus Group for their letters of support for the grant. Also, a special thanks to Kitty Connolly Executive Director for Friends of the Fiscalini Ranch. Kitty assisted the Department in writing and submitting the grant.

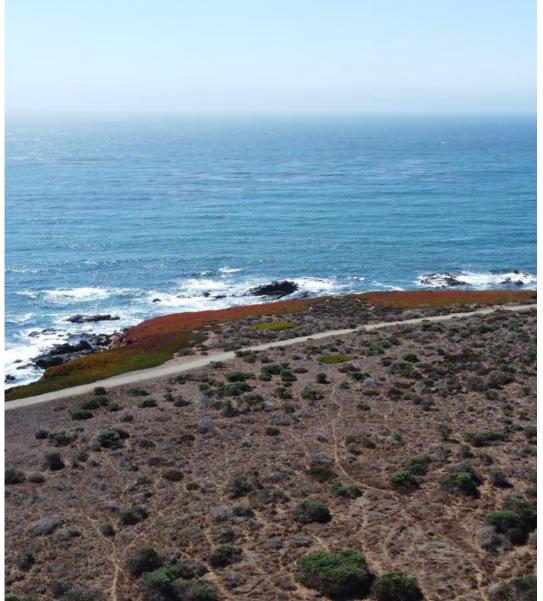

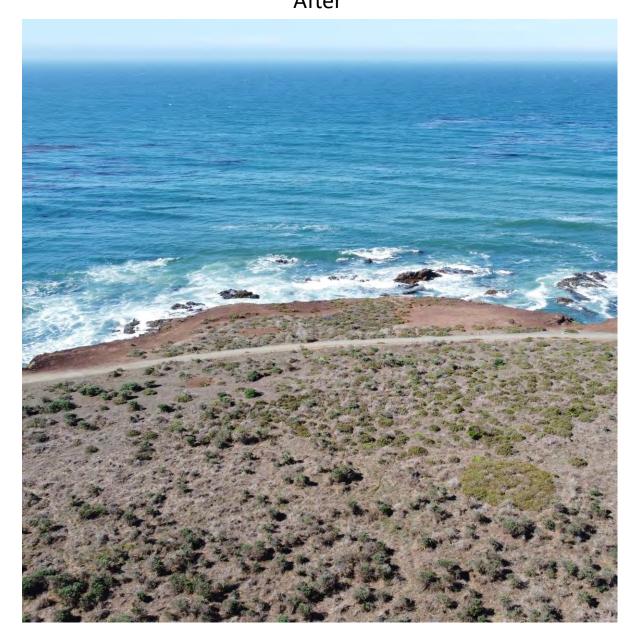

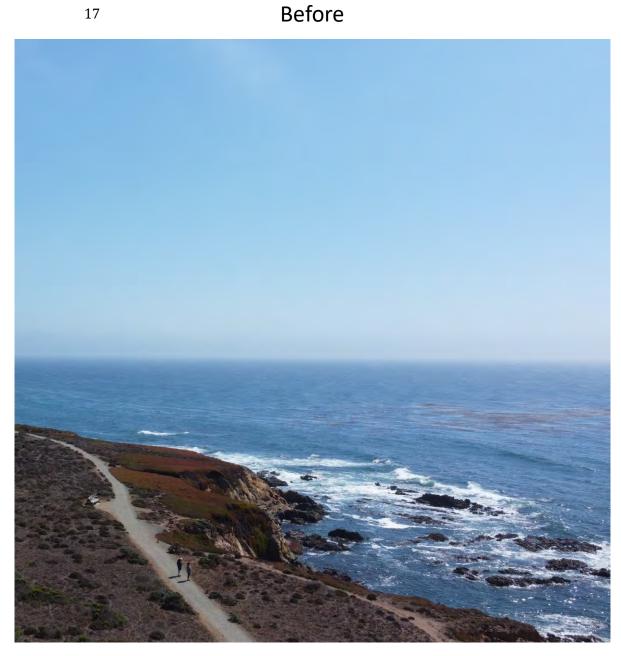

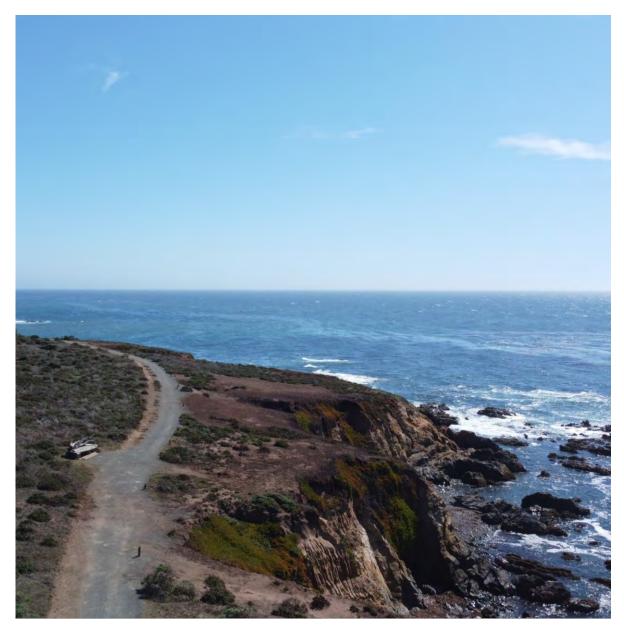

# **Pocket Park Center St**

On October 3<sup>rd</sup> the Department conducted a clean up of the Pocket Park on Center St. Eviction notices were posted by the San Luis Obispo Sherriff's Department and an Officer was onsite during the clean up. A contractor loaded up approximately 8 yards of personal belongings on a CCSD owned trailer. The personal belongings are being stored at the Department's headquarters. Along with the 8 yards of personal items, another 8 yards of trash was removed from the Park.

With this clean, up the Department has now cleaned up approximately 150 encampments in the past 3 years.

# **Streetlights**

## December 2021 Accident

In December of 2021 a CCSD owned streetlight across from 2084 Main St. was hit by a vehicle. The hit and run accident happened at night and a driver could not be identified.

The cost to replace the streetlight was \$8,444. The District's insurance covered \$7,444 of the cost.

Electricraft Inc. ordered the streetlight in December. The light was shipped from Canada and was installed last month. The new light is LED.

# **New Light Installed**

In preparation for the upcoming winter, the Department is coordinating with the San Luis Obispo County in offering sand for the public. Sand is located at the entrance of the Dog Park on Rodeo Grounds Rd. Bags are not provided but can be purchased at the hardware store or any home improvement center.

At this time, the CCSD has adequate resources to meet its cash commitments. Staff will continue to be frugal in purchases, postpone non-critical purchases and carefully monitor their respective budget(s).

Staff submitted a reimbursement request for COVID-19 costs to FEMA. The next step in the process is for FEMA to determine if the costs submitted are eligible for reimbursement, which continues to be under review. Staff received correspondence from FEMA regarding assignment of a new recovery specialist. Staff is working with FEMA to obligate eligible COVID-19 costs. Additional Board approval is required to continue with the recovery process, which is included in today's agenda as a separate action.

In late January 2021, CCSD facilities and equipment were damaged by the significant rain and windstorm activity. Staff has continued working with the County of San Luis Obispo Office of Emergency Services and the State-CALOES to recover eligible costs. The State-CALOES staff met with CCSD staff and toured the damaged sites in early December 2021. Staff is working with State-CALOES on cost recovery efforts and damage assessment reports are routing through the State-CALOES approval process.

To date, State-CALOES has approved the following projects for reimbursement:

#### **NEW FINANCIAL SYSTEM UPGRADE - STATUS**

Staff is working with Tyler to complete the implementation contract and transition from post implementation support to general technical support. The closeout process is underway and expected to be completed soon.

# **Utilities Report for October 2022**

Department Activities for the Month of September

## Wastewater Treatment Plant (WWTP)

This month, our staff attended the California Water Environment Association conference held at the City of San Luis Obispo's (SLO) Wastewater Treatment Plant. Staff earned continuing education credit for their time at the event, and received training on such topics as bypass installation, per- and polyfluoroalkyl substances (PFAS), working with clay pipe, biosolids

disposal, and a tour of the City of SLO's upgraded facilities.

The vents on the blower system, which were previously damaged during a power outage, were replaced this month. This work was covered by insurance.

The motor on the effluent pump #2 shorted out in September. A backup motor was installed and the original motor was sent in for service. Effluent pump station improvements were included in the Investment Grade Audit report but were not prioritized in the Sewer Fund Base Project.

Figure A - Effluent Pump #2

The pH probe for the plant failed and cannot be replaced until October due to equipment shortage. Staff has been manually sampling and recording pH values in the interim.

#### Wastewater Collection System

This month, staff completed the jetting of Ardath after several weeks of steady progress on this high-traffic road. Despite not having been cleaned for quite some time, the line was in good condition.

Figure B - Damaged rotating shaft at LS A-1

A rotating shaft on the pump at lift station A-1 snapped in September. A rebuilt rotating assembly was installed as an interim repair while a new part is being ordered.

#### Tech Talk Topic (It's Back!)

This month's topic highlights the importance of using the Modified Ludzack-Ettinger treatment process.

One of the major PG&E infrastructure upgrades at our wastewater treatment plant is our aeration basin, and specifically, our Modified Ludzack-Ettinger (MLE) process. In an earlier topic, we discussed how microorganisms play a large role in wastewater treatment. This discussion will summarize the heart of our wastewater treatment process.

To maintain low nitrogen levels in our treated effluent, we use the MLE process to target nitrogen removal.

Refer to the figure below that illustrates the MLE process within our aeration basin:

#### Anoxic Zone (low oxygen zone)

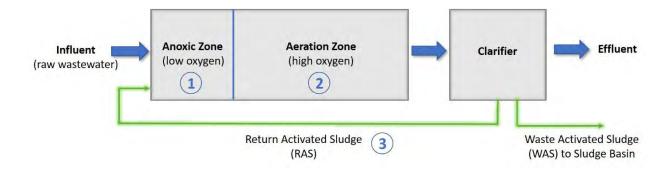

The first step in the treatment train is an anoxic zone. The influent wastewater serves as the carbon source for bacteria. Return activated sludge from the clarifier provides microorganisms that will also facilitate the biological treatment process.

#### Aeration Zone (high oxygen zone)

In this zone, the addition of air helps facilitate the breakdown of the waste solids.

#### Return Activated Sludge (waste solids and microorganisms)

Some sludge is returned to the anoxic zone to continue the treatment cycle (Return Activated Sludge or "RAS"). The sludge not reused continues through the treatment process and is later disposed of as solid waste. Microorganisms in RAS are "hungry" and, when introduced to the low oxygen environment, will "eat" the oxygen in the nitrate and the new carbon source from the waste solids.

When first implemented at the WWTP, **the MLE process resulted in a 90% reduction in nitrates** (see Figure I below). Permanent modifications to the WWTP are required to maintain these nutrient reductions and increase process and energy efficiencies in the years to come. This upgrade to our aeration basin is part of the list of projects to be constructed under the PG&E Sustainable Solutions Turnkey (SST) program.

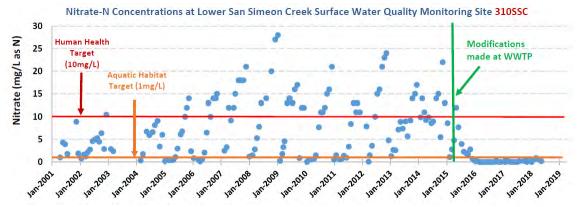

Figure C - This chart shows the efficacy of the MLE process in reducing nitrates at the Lower San Simeon Creek area

## Water Department

After last month's full line replacement of a troublesome service on Banbury Road, two additional services were repaired during the month. The failing service lines are scheduled for full replacement in October.

Cambria Pines Lodge called on the Water Department for help isolating a section of their system to replace a leaking pressure regulator. Operators responded to the call but were unable to actuate the 2-inch valve stop to a close. A pinch tool was utilized to minimize flow while the regulator was replaced. The following week, staff scheduled the replacement of the failed valve and replaced other aging fittings that were also in danger of failing.

By mid-September, Santa Rosa Well 4 (SR-4) had produced over 16 acre-feet and was operating flawlessly after well repairs the previous month. Some updates to the Supervisory Control and Data Acquisition (SCADA) System were required upon initial start-up to reduce nuisance alarms as the well was

Figure D - Leaking Pressure Regulator at Cambria Pines Lodge

rehabilitated. Production from SR-4 has slowed the depletion of the San Simeon aquifer, conserving that primary source for the fall and early winter months.

The newly refurbished SR-4 well head received an exterior coating to protect it from the elements and extend its useful life. Santa Rosa Well 3 (SR-3) also received a new coat of paint.

Figure E - Before exterior coating application (left), metal primer application (center), and finished two-part epoxy coating (right)

### Water Supply Status

As of September 30, the CCSD has diverted 33% and 53% of the annual San Simeon Creek and Santa Rosa Creek allocations, respectively, with 70% of total production coming from the San Simeon Creek aquifer. Approximately 37% of the San Simeon and 59% of the Santa Rosa dry season allocation has been used. San Simeon Creek well levels are stable due to dry season basin management protocols (see attached charts). Additional well level data and production summary reports are available on the website at <a href="https://www.cambriacsd.org/water-data">www.cambriacsd.org/water-data</a>.

Other Water Department activities for September are listed below.

Activity	#
	Completed
Manual Meter Reads/Locates for Billing Purposes	69
Customer assists for high water usage on customer side of meter	10
Locking/Unlocking Water Meters	1
Meter Shut-Off/Turn-On at Owner's Request	2
Repairs of distribution system leaks	6
After-Hours System Alarm Responses	2
USA Locations	31
Water Service Line Information Requests	10
Service Angle Stops/Valves Replaced	4
Valves Exercised	18
Hydrant/Valve Maintenance (37 out of 369 to date in 2022) – no hydrants are flushed due to drought stage	0

## Water Reclamation Facility (WRF)

Staff has been maintaining the newly installed reverse osmosis membrane media. Keeping the filter media wetted and free of biological growth requires weekly activity. Sampling is performed before and after circulation of the preservative to ensure optimal performance.

Figure F - Turbidimeters in the microfiltration train were included in the calibration efforts.

The strainer filter at the headworks of the plant was disassembled, flushed, cleaned, and reassembled with new replacement parts. Operator Cody Meeks assisted Water System Superintendent Jim Green on this task. Meeks has taken a lead role in the maintenance of the WRF.

Also this month, all analytical devices were calibrated and evaluated by Gold Coast Environmental. This practice ensures efficient treatment and validates production water quality.

#### Conservation & Permits

### Water Supply & Demand

Net diversion in September 2022 was 0.55 acre-feet lower than the same month last year. The September demand reduction goal was 9.6 acre-feet; however, the actual demand reduction achieved was 4.6 acre-feet. The cumulative supply deficit for the reporting period of July 1, 2022 through June 30, 2023 is currently 10.1 acre-feet. Supply totals projected in the Annual Water Supply and Demand Assessment are conservatively low to protect the water supply from extended dry season impacts. Well levels are currently trending above average at the CCSD's primary production field, San Simeon. Monitoring well levels at Santa Rosa are nearing the trigger point for ceased diversions, which will increase production from the San Simeon wells and result in an inevitable decline in storage at that source. To ensure adequate capacity in the coming fall and early winter months, a continued Stage 3 Water Shortage Warning is recommended. The updated Potable Water Shortage Assessment table is included as an attachment to this report.

As of the writing of this report (September 29, 2022), 335 Water Shortage Response Certification Forms have been submitted (see Figure I). Staff will be sending follow-up notices to those who have not yet completed this requirement.

Staff created a form for the public to report on observed or suspected water waste or leaks. This form is accessible on the homepage of the CCSD website under "Water Waste Report".

Conservation staff met with the regional *Partners in Water Conservation* group this month. This group consists of water conservation and water resource professionals from the County of San Luis Obispo (SLO), including the City and County of SLO, Atascadero Mutual Water Company, and the City

of Arroyo Grande. Innovative programming ideas were exchanged and updates on drought regulations and how each agency is responding to them were shared.

Staff also continued a benchmarking effort with water resource counterparts at Southern California Edison on Catalina Island. This effort is a knowledge- and resource-sharing collaboration initiated by Southern California Edison staff due to Catalina Island's similar demographics, water sources, and terrain. To date, staff has completed two video calls with SCE staff, exchanging statistics, programming efforts, best practices, and other professional resources.

This month, six Water Use Efficiency Walk-Throughs were performed, including one commercial lodging property. Forty shower timers were provided to El Colibri Hotel & Spa at their request. Staff also took advantage of a clearance sale on Honeywell Leak Detectors. These devices are battery operated and provide an audible alarm when water is detected. Water conservation devices continue to be provided to CCSD customers free of charge at the Cambria Farmer's Market and upon request. Email conservation staff at <a href="mailto:engineering@cambriacsd.org">engineering@cambriacsd.org</a> for information on device availability or find us at the Farmer's Market every-other-Friday.

to Government Code Section

54953(e)(3)

#### **RECOMMENDATIONS:**

It is recommended that the Board of Directors consider adoption of Resolution 67-2022 to continue authorizing remote teleconference meetings of the legislative bodies of the Cambria Community Services District Section 54953(e)(3).

#### FISCAL IMPACT:

The fiscal impact of continuing to implement the teleconferencing requirement, for CCSD Board, Standing Committees and PROS Commission regular and special meetings includes AGP Video expense and continuing the Zoom subscription. #### **DISCUSSION:**

At the September 24, 2021 Board of Directors meeting the Board of Directors adopted Resolution 37-2021 authorizing remote teleconference meetings of the legislative bodies of the Cambria Community Services District in accordance with newly adopted Government Code Section 54953(e) that was added to the Brown Act by AB 361.

Government Code Section 54953(e) permits legislative bodies, when there is a proclaimed State of Emergency declared by the Governor pursuant to Government Code Section 8625, to make a determination to authorize meeting remotely via teleconferencing as a result of the emergency. To do so, a resolution needs to be adopted in which the legislative body finds that meeting in person would present imminent risks to the health or safety of attendees, or that State or local officials have imposed or recommended measures to promote social distancing.

The initial resolution is valid for thirty (30) days after teleconferencing for the first time pursuant to Government Code section 54953(e). If the State of Emergency remains active after that 30 day period, the local agency may act to renew its resolution and continue authorizing remote teleconferenced meetings by passing another resolution which includes findings that the State of Emergency declaration remains active, the local agency has reconsidered the circumstances of the State of Emergency, and the local agency has either identified: A) ongoing, direct impacts to the ability to meet safely in-person, or B) active social distancing measures as directed by relevant State or local officials.

Resolution 37-2021, adopted on September 24, 2021, included findings and was based upon a determination that as a result of the proclaimed State of Emergency in California due to the COVID-19 pandemic, and its continued spread in San Luis Obispo County and Cambria through the Delta variant of SARS-CoV-2, which is more transmissible than prior variants of the virus, may cause more severe illness, and that even fully vaccinated individuals can spread the virus to others, holding meetings in person would present imminent risks to the health or safety of attendees. Recently, the BA.2 variant, which is highly transmissible, has become the dominant strain in California.

Resolution 37-2021 became effective immediately and remained in effect for thirty (30) days after teleconferencing for the first time pursuant to Government Code section 54953(e). In order to continue to hold remote teleconferenced meetings in April, the Board of Directors will need to continue to adopt a subsequent resolution every thirty (30) days in accordance with Government Code section 54953(e)(3) to extend the time during which the legislative bodies of the Cambria Community Services District may continue to teleconference without compliance with paragraph (3) of subdivision (b) of Government Code Section 54953.

#### RESOLUTION 67-2022 October 20, 2022

A RESOLUTION OF THE BOARD OF DIRECTORS
OF THE CAMBRIA COMMUNITY SERVICES DISTRICT MAKING
FINDINGS IN ACCORDANCE WITH GOVERNMENT
CODE SECTION 54953(e)(3), AUTHORIZING THE CONTINUANCE OF
REMOTE TELECONFERENCE MEETINGS OF THE LEGISLATIVE BODIES
OF THE CAMBRIA COMMUNITY SERVICES DISTRICT

WHEREAS, on March 4, 2020 Governor Newsom declared a State of Emergency in the State of California pursuant to Government Code Section 8625 as a result of the threat of the Coronavirus (COVID-19) pandemic, which declaration continues to be in effect; and

WHEREAS, on September 16, 2021 Governor Newsom signed AB 361, which added subsection (e) to Government Code section 54953 of the Brown Act, and makes provision for remote teleconferencing participation in meetings by members of a legislative body, without compliance with the requirements of Government Code section 54953(b)(3), subject to the existence of certain conditions; and

WHEREAS, a required condition of Government Code Section 54953(e) is that a state of emergency is declared by the Governor pursuant to Government Code section 8625, proclaiming the existence of conditions of disaster or of extreme peril to the safety of persons and property within the State caused by conditions as described in Government Code section 8558; and

WHEREAS, in addition to the Governor's proclamation of a State of Emergency, on March 23, 2020 the Board of Directors ("Board") adopted Resolution 09-2020 declaring a State of Emergency to exist in the Cambria Community Services District as a result of the Coronavirus pandemic; and has continued to make determinations that a local State of Emergency continues to exist in the Cambria Community Services District as a result of the Coronavirus pandemic; and

WHEREAS, there has been a significant incidence of COVID-19 cases in San Luis Obispo County due primarily to the BA.2 variant of SARS-CoV-2, the virus that causes COVID-19. Emerging evidence indicates that the BA.2 variant is highly transmissible and can be spread even by fully vaccinated individuals; and

WHEREAS, on September 24, 2021 the Board of Directors adopted Resolution 37-2021, finding that the requisite conditions exist for the legislative bodies of the Cambria Community Services District to conduct remote teleconference meetings without compliance with paragraph (3) of subdivision (b) of section 54953; and

WHEREAS, as a condition of extending the use of the provisions found in section 54953(e), the Board of Directors must reconsider the circumstances of the State of Emergency that exists in the District, and the Board of Directors has done so; and

WHEREAS, the Board of Directors now desires to adopt a Resolution finding that the requisite conditions exist for the legislative bodies of the Cambria Community Services District, as defined in the Brown Act, to continue to conduct remote teleconference meetings without compliance with paragraph (3) of subdivision (b) of Government Code section 54953.

NOW, THEREFORE, BE IT RESOLVED by the Board of Directors of the Cambria Community Services District as follows:

- 1. The above recitals are true, correct and are incorporated herein by this reference.
- 2. In accordance with the requirements of Government Code Section 54953(e)(3), the Board of Directors of the Cambria Community Services District hereby finds and determines that it has reconsidered the circumstances of the State of Emergency and that the State of Emergency continues to exist and to directly impact the ability of the members to meet safely in person due to the COVID-19 pandemic, and its continued spread in San Luis Obispo County and Cambria through the BA.2 variant of SARS-CoV-2, which is highly transmissible, and that even fully vaccinated individuals can spread the virus to others, and therefore holding meetings in person would present imminent risks to the health or safety of attendees.
- 3. The General Manager and legislative bodies of the Cambria Community Services District are hereby authorized and directed to continue to take all actions necessary to carry out the intent and purpose of this Resolution including, continuing to conduct open and public remote teleconferencing meetings in accordance with the requirements of Government Code section 54953(e) and other applicable provisions of the Brown Act.
- 4. This Resolution shall take effect immediately upon its adoption and shall be effective for thirty (30) days after its adoption, subject to being extended for an additional 30 day period by the Board of Directors adoption of a subsequent resolution in accordance with Government Code section 54953(e)(3) to further extend the time during which the legislative bodies of the Cambria Community Services District may continue to teleconference without compliance with paragraph (3) of subdivision (b) of Government Code section 54953.

Resolution 67-2022 was adopted at a regular meeting of the Cambria Community Services District on October 20, 2022.

#### **FISCAL IMPACT:**

Approval of the attached Employment Agreement ("Agreement") will result in a continued annual salary of \$151,463, which is Step E for Fire Chief in the Annual Salary Schedule for Cambria Exempt Employees. There is no increase in salary at this time; however, he will receive a 5% pay raise in July 2024. The Fire Chief will also receive a \$100 match per payroll period to the 457 deferred compensation plan, an annual \$1,000 uniform and boot allowance, and the CCSD will pay costs associated with DMV physicals and paramedic reaccreditation. He will have the use of a CCSD-provided vehicle and cell phone or cell phone stipend for business purposes, and the District will pay \$600 per year for professional dues and publications, as well as \$3,500 per year for meetings and conferences. Additionally, the Fire Chief is eligible for up to \$8500 for relocation and temporary housing expenses.

#### **DISCUSSION:**

The CCSD has historically retained its Fire Chief by contract. Accordingly, the attached Employment Agreement, which has an approximate five-year term, has been negotiated by the General Manager for the Board's consideration.

The Board is advised that significant effort was expended during the search for a new Fire Chief. Finalist candidates were interviewed multiple times, including through an in-person panel which consisted of Board, staff, three regional active fire chiefs, the IAFF union representative, and a Fire Safe Focus Group representative. This provided the General Manager with significant input during the decision-making process.

#### CAMBRIA COMMUNITY SERVICES DISTRICT

TO: Board of Directors AGENDA NO. **7.C.** 

FROM: John F. Weigold, IV, General Manager

Carlos Mendoza, Facilities & Resources Manager

Meeting Date: October 20, 2022 Subject: Discussion and Consideration of

Acquisition of Land Conservancy Lot in

Fern Canyon and Adoption of Resolution 70-2022 Authorizing

Acceptance of the Lot

#### **RECOMMENDATIONS:**

Staff recommends that the Board of Directors discuss and consider approving a Real Property Transfer Agreement ("Agreement") with the Land Conservancy of San Luis Obispo County (LCSLO) for the transfer of one lot (APN 023-341-065), subject to District Counsel's approval, and adoption of Resolution 70-2022 authorizing acceptance of the lot.

#### FISCAL IMPACT:

The lot is not currently on the annual weed abatement program. The lot has some aging Monterey Pine trees, invasive plants and has accumulation of fuel loads. In the future, funds will be required to address these issues.

#### **DISCUSSION:**

In June 2017, the Board of Directors entered into a Memorandum of Understanding (MOU) with LCSLO for the Transfer Development Credits Lot Retirement Program (TDC Program). Under the MOU, LCSLO will acquire parcels by donation or purchase from landowners and immediately transfer the parcels to CCSD. CCSD then encumbers the parcels with a conservation easement in favor of LCSLO, effectively retiring all development rights on the property. LCSLO has identified a landowner that wishes to donate an eligible lot to LCSLO and will provide the Agreement to facilitate the transfer, which is subject to District Counsel's approval. The Agreement will transfer the lot from LCSLO to the CCSD and memorialize the process described above.

The North Coast Area Plan (NCAP) contains provisions relating to LCSLO's promotion of the TDC Program, as well as implementation of the CCSD's Buildout Reduction Program (BRP) through the acquisition of vacant lots and retirement of development rights. The TDC Program voluntarily retires lots within designated sensitive resource areas of Monterey Pine Forest Habitat by recording a conservation easement or other document on the property. The building potential of the retired lot is then transferred to a buildable lot outside of the CCSD's service area to allow for development of dwellings with a larger square footage than would otherwise be allowed by planning area standards. LCSLO manages the program, coordinating land purchases or donations with lot owners and turning the land over to the CCSD for long term management.

The TDC Program was established in the late 1980s as a way to address concerns over the development of antiquated and substandard lots in Cambria. Several thousand parcels created in the 1920s and 1930s are located on densely forested and steeply sloped lands. Rapid

development threatened the rare Monterey Pine Forest and presented erosion and sedimentation concerns, as well as further straining the area's already limited water supply. The lot is located on Camborne Place in the Fern Canyon Preserve as shown on the attached assessor's parcel map. LCSLO indicates this lot has a high ecological value and is worth retiring through the TDC Program. Staff inspected the lot and did not find any hazards. The CCSD owns several lots surrounding the property as shown in the assessor's parcel map. There will not be an immediate maintenance cost to the lot as it is currently not on the annual weed abatement program; however, if the CCSD wishes to address the invasive plants and the accumulation of fuel loads there will be an associated cost to this, which would be paid out of the General Fund. This transaction will also help implement the BRP.
